when needed, the asthma governing board will discuss challenges and opportunities that may impact the organization’s ability to provide evidence-based care to KP members who have asthma.

The asthma governing board is responsible for ensuring that KP members receive high-quality care that is based on evidence. When they meet, the board will discuss any challenges or opportunities that may affect the ability of the organization to provide this care. This could include issues related to the availability of medications, the effectiveness of treatment plans, or changes in the medical community’s understanding of asthma.

The asthma governing board is an important part of the healthcare system, and their meetings are crucial for ensuring that KP members receive the best possible care. The board’s discussions help to identify and address any issues that may arise, and their decisions have a direct impact on the health of KP members.
